NEW TRUSTEES REPLACE VETERANS ON VILLAGE BOARD

Hawkins and Drom Lose to the People's Party Candidates

Antioch voters, inspired by the sensational upset that marked the high school election here two weeks ago, again became vote-conscious at the village election Tuesday and showered the polls with an avalanche of votes that removed two veteran incumbent trustees from office and elected the entire slate of candidates on the People's ticket.

With no well defined issues on either ticket the candidates lined up with E. O. Hawkins, J. B. Drom, and Otto S. Klass on the Citizens ticket, presumably representing the administration's slate of entries, and Arthur Rosenfeldt, Cleve Vos and Elmer Rentner on the People's ticket, said to be the choice of the anti-incumbent forces.

Wilton's Term Expires

Drom and Hawkins, both long active in village affairs, lost to the newcomers in the local political arena, as did their running mate, Klass, chosen by the administration forces to run in the place of Robert Wilton who declined to become a candidate for a second term. It was erroneously stated that Wilton had resigned as trustee, when as a matter of fact he stated he would retire from office at the expiration of his present term, April 30.

Vos topped the vote for the victors with 237 counters, Rentner received 211 votes and Rosenfeldt 173. The "oldtimers" ticket was led by Otto Klass as top man with 163 votes, while Drom and Hawkins received 140 and 163 respectively. A total of 367 votes were cast.

Sport Proposal Wins

Antioch firemen and sport lovers were elated when the proposition to allow boxing and wrestling within the municipality carried about 3 to 1, 272 favoring the measure and only 95 opposing. The favorable vote allows the firemen to proceed with the all-star wrestling and boxing show set for April 28 at the high school gym.

In the Fox Lake election Tuesday, William Wood, Howard L. Scott, Jr., and Milton Bennett were elected trustees, with votes of 355, 345 and 343, respectively. The other candidates were Frank Gerretsen, who received 327 votes, and William Walk, who got 137.

Laddie Raska was chosen police magistrate with 362 votes. Leslie Vogt received 221 and Edward McLean 32.

Lake Villa Elects Reinbach

Lake Villa named Carl W. Reinbach village clerk, with 169 votes; to Gus Hines 52. Trustees are Frank Czes, 147; Lester Hamlin, 142, and Grant E. Miller, 127. Frank Woods, with 90; Joseph Nader, 72, and Zens Zenor, 59, were the losing candidates.

At Grayslake, Louis I. Behm, Edgar S. Read and Arthur J. Hornberger were elected trustees for four year terms and Walter Tschappatt was chosen for the two year term. O. E. Hildebrandt was named police magistrate for an unexpired term of two years.

In Libertyville, Allan Andrews, Mark E. Neville and W. A. Nicholas were chosen trustees and Max Kohner and F. H. Martin were elected to the library board.

Live and Learn, Speaker Tells Men's Civic Club

Life itself is the greatest school of all, and you are not through learning when you complete a course in some school, R. M. Plaister, business analyst from Moody's Investors' service, told members of the Antioch Men's Civic club at St. Peter's church hall Monday night, at the monthly dinner of the local club.

The speaker, making his fourth appearance here before the club, stressed the importance of the work of adult discussion groups as an educational feature and as an aid to intelligent voting. Speaking of the war scare had driven many business and manufacturing interests to cover. He hoped for a revival of business this fall.

Following the report of the nominating committee all officers were re-elected for the coming year: President A. P. Bratrude will again head the club, and Otto S. Klass, vice president, R. E. Clabaugh, secretary, and Russell Barnstable, treasurer were also re-elected.

Gravel Truck Catches Fire at Filling Station

About \$50 worth of damage was done to a gravel truck parked in front of a filling station at the intersection of Highways 173 and 54, just south of Antioch, when it caught fire Wednesday noon. Gasoline spilled on a hot exhaust pipe was blamed for causing the blaze.

The Antioch fire department was called out immediately, and extinguished the flames with little trouble. The alarm came in almost exactly on the stroke of 12 o'clock, and the Antioch firemen, who pride themselves on getting out the fastest of any volunteer department in the state, were underway aboard their truck within a few seconds.

The gravel truck was being used for hauling material from Wilnot to Waukegan and the driver had stopped to fill his tank when the fire occurred.

LOTS OF COLOR IN PROGRAM FOR WRESTLING SHOW

New Numbers Are Made Known for Firemen's Benefit Apr. 29

Added local color will be brought to the wrestling show to be sponsored by the Antioch firemen Friday evening, April 28, by the settling of a feud that has long been brewing between two amateur exponents of the grunt and groan profession—"Bill" Murphy and "Chet" Kilpatrick.

Murphy has worked out with Antioch's famous Jim McMillen, who will headline the card that evening, and is characterized by Jim as being "really good. He's quick and has plenty of 'balance'."

Kilpatrick, the Atlantic and Pacific Tea company champion, is also praised as a promising amateur, with plenty of spirit, and the two are expected to put on a fast show.

"Red" Grange Coming

The one and only Harold (Red) Grange, whose team McMillen captained at the time "Red" made his sensational rise to football fame, while both were students at the University of Illinois, has accepted an invitation to be present as a guest of honor at the show.

George Halas, president of the Bears, and Jack Manders, champion place-kicker, will also be distinguished guests.

Plans for the show were spurred into further action and given additional impetus when Antioch voters gave the "go ahead" signal in the election Tuesday by approving an ordinance to permit the staging of professional wrestling and boxing matches within the village limits.

Posters advertising the program have been put up in the village and in nearby cities and towns. It is expected that the show will be quite a drawing card for sports fans from other communities.

To Settle Kong Feud

The wind-up will feature McMillen and the Abyssinian wild man, King Kong, who will settle their little difference over the matter of the rock that Kong used on Jim in the arena at Grayslake last summer.

Ruffy Silverstein, the great little mat hero, and Chin Lee, cunning oriental, will share the wind-up position.

A special feature that is expected to have the fans sitting on the edges of their seats is the jui-jitsu battle to be put on by Matty Matsura, holder of the Japanese third degree jui-jitsu rank, and Jerry Mecker, Hawaiian champion.

Three amateur boxing bouts by winners in the recent high school tournament are to be further attractions on the well-filled card.

Proceeds of the show will be used to purchase new uniforms for members of the Antioch Fire department.

Antioch Veteran Gets Pay for Army Service 40 Years Ago

It took a long time to get here, but John Pacini of Antioch has finally received two months' pay for service in the U. S. Army during the Philippine Insurrection, in 1899.

Pacini was a member of Troop F, U. S. Cavalry.

His pay includes a bonus for enlistment.

Lions Festival Party Has Attendance of 100

One hundred persons who helped to make the Antioch Lions' Club festival last August a success were guests at a party and dance Tuesday evening in the Danish hall. A buffet luncheon was served at 10 o'clock. Irving Elms was chairman of the party committee.

MAP SUMMER PROGRAM OF RECREATION

Recreation Association Out- lines Activities for the Coming Months

A comprehensive program has been outlined by the Antioch Recreation association for the spring and summer months, and the success of the Community party which was held at the high school Saturday night has helped to insure its being carried out.

April and May playground activities will include the following:

Special Events—marble tournament, kites, treasure hunt, hikes, camp craft, community party.

Crafts—kites, Easter baskets, Mother's Day gifts, flowercraft, weaving, art, sketching, woodcraft, game boards, bird houses etc., May baskets, party favors, carving.

Organized Games—volley ball, croquet, soft ball, organized games.

Summer Activities

Special Events—4th of July, parade or lantern pageant, nature hikes, bird walks, folkdance in costume, circus parade, pet show.

Dramatics—puppetry, story telling, story telling dramatization, singing games, playparty games, folk dancing, charades.

Crafts—sketching, wood carving, soap carving, lantern making, doll dressing.

Camera Club.

Harmonica Band.

Active Games for Playgrounds—team games, horseshoes, quoits, tennis, soft ball, volley ball, sand box (tiny tots).

Articles needed for the playground include two tables for craft and wood work and two sandboxes for tiny tots. Activities for older boys and men, such as horseshoe pitching, and volleyball, are among those which will be stressed.

The classes at the Grade school on Tuesdays are being continued.

Plan Hike

A hike to the Channel Lake "youth hotel" is being planned for Saturday, April 29. The hikers will start from the grade school at about 10 o'clock. Miss Cornelia Roberts has offered the use of out-door cooking facilities on the grounds at the hotel for the preparation of a picnic luncheon.

The making of radio crystal sets, under the charge of R. R. Coan, is among the craft projects at the school which have been greatly enjoyed.

"BACK TRACKING M. POLO" TO BE SPEAKER'S THEME

H. S. Student Council In- vites Parents to Hear Talk April 26

"Back Tracking Marco Polo" is the title of a lecture to which the Antioch Township High School Student council is inviting parents and friends of all students enrolled in the school. The lecture is to be given in the school auditorium the evening of Wednesday, April 26, at 8 o'clock.

Arthur Kane, traveler, journalist and lecturer, will be the speaker. In his talk Mr. Kane will tell the story of his thrilling and absorbing Asiatic adventures.

As he discusses his experiences, he changes from one costume to another, each outfit being one he actually wore on his travels as he progressed from country to country.

He shows how to eat with chopsticks, how to wind a turban, how the Hindu magicians charm a cobra. He also illustrates how one can overcome racial prejudices and learn to know the individuals and their country.

The Rev. F. M. Flaherty, pastor of St. Peter's church, Antioch, has been spending a few days' vacation at French Lick Springs, Ind.

LOCK THE STABLE BEFORE THE HORSE IS STOLEN

Music Festival is Planned for Friday

Rhythm band selections, Mexican dances, one-act plays and glee club and band numbers will provide a variegated program in the Music Festival to be held by Antioch Grade school Friday evening at 8 o'clock in the Antioch Township High School auditorium.

The dances will be given in costume, and are expected to provide a pretty interlude in the musical numbers.

Further variety will be added by the plays the children are preparing.

The band and glee club have been rehearsing diligently for the affair, and their numbers have been chosen with a view to "audience appeal."

VETERAN SMITH DIES, AGED 78

William Kelly, Who Came Here from Isle of Man in 1895, Dies

William H. Smith, who for 42 years operated the blacksmith and repair shop on Lake street, just off Main, in Antioch, died in the Swedish Covenant hospital, Chicago, Tuesday morning at 5 o'clock. He was 78 years old.

Failing health forced him to give up his work at the shop two years ago. For several months he lived with a son, Ernest, in Chicago. A month ago he became ill with pneumonia, and he had been at the hospital since that time.

Kelly was born in Crosby, Isle of Man, on May 15, 1861. At the age of 26, he was united in marriage with Rebecca Gelling, also a native of that island.

They and their two sons, Clair and Ernest, came to the United States in 1895 and settled in Antioch.

Mrs. Kelly preceded her husband in death Oct. 24, 1923. Surviving are their sons, Clair, of Antioch, and Ernest, of Chicago. There are no grandchildren.

Funeral services will be held Friday afternoon at 2 o'clock in St. Ignace church, with burial in Hillside cemetery.

Mr. Kelly was one of the many Manxmen residing in this section of the country. He was always greatly interested in the activities of his fellow islanders in this country, and attended their annual conventions and dinners in Chicago each year.

Charles Harbaugh, Head of Lumber Company, Dies

Word has been received from St. Petersburg, Fla., of the death of Charles Harbaugh, president of the Twin Lakes Lumber company, and of the Harbaugh Lumber company branches in Fox Lake, Round Lake, Ingleside, Sycamore and St. Charles.

Evanston Man Buys Store at Deep Lake

Arthur C. Jost, of Evanston, Ill., has purchased the Deep Lake store which in past years was operated by the late Mr. Kjellberg. Mr. Jost plans to open a new, modern store and meat market in the location the first of May. For the past 16 years he has been in the employ of the Bowman Dairy company.

ANTIOCH LIONS PLAN TO BOOST RESORT REGION

Head Move to Advertise Area at Travel Show Next Week

Antioch and the lakes region will again be represented at the International Travel Show which opens next Thursday, April 27, at the Stevens hotel in Chicago. The four-day event originated by the Chicago Daily News, will be staged in the largest hotel exhibition hall in the world.

Heading the move to boost the resort and vacation patronage in the Antioch lake area is the Antioch Lions club which is acting in co-operation with the business men and resort owners of the region. President Walter Scott of the local Lions club today appointed members to have charge of the Antioch booth for the four days of the big show.

Helped Business Last Year

Last year the booth at the travel show was pronounced a success, and is thought to have brought greater business to the resort region. Over 14,000 folders advertising the region as a resort area were handed to visitors at the show, and there was a follow-up distribution of the advertising through more than 90 points in the city.

The program is conceived to compete with the publicity campaigns inaugurated by other resort sections, and it is believed that the local community has more to offer in the line of recreational facilities than many other regions that spend thousands of dollars annually in advertising to attract vacation business.

CARROLL LOSES TO W. L. PIERCE

Misses Judgeship Nomina- tion by Narrow Margin at Rockford Meet

By the narrow margin of 67 to 76 votes, State's Attorney William M. Carroll lost the nomination for the third judgeship in the Seventeenth Judicial circuit to William L. Pierce of Belvidere, one of the present sitting judges, at the Republican convention in Rockford Saturday. The other nominations went to Ralph J. Dady of Waukegan, another of the present circuit judges, and Attorney Thomas E. Gill.

Carroll received 43 of Lake county's 58 votes, the others going to Pierce. McHenry county's votes also went to Carroll.

The Boone and Winnebago county delegates cast their votes solidly for Pierce.

Carroll had been expected to receive additional support from Lake county, but several of the delegates who had been pledged to him changed their votes to Pierce after arriving at the convention.

Attorney Gill's nomination fills the vacancy left by the retirement of the veteran jurist, Judge Arthur E. Fisher of Rockford.

Attorney B. J. Knight of Rockford was nominated by the Democratic party, which also held a convention in that city Saturday, as its lone candidate in the Seventeenth Judicial district.

To Hold Hearing on Hit-and-Run Charge

A hearing was to be held in Waukegan today on charges that Norman Alward, Lake Villa, had left the scene of an automobile accident without giving proper information to the other party involved in a minor crash, Richard Itemberg, a Warren Township High school student.

Hold Training Course for 4-H Club Leaders

A training school for leaders of 4-H clothing clubs was held at the Home Bureau office, Grayslake, Tuesday. Mrs. Elsie Ross Butler, district 4-H adviser, was in charge. To date, 16 girls' 4-H clubs have been organized in the county. Communities desiring to organize clubs may notify Mrs. Helen Johnson Volk at the Home Bureau office, telephone Grayslake 6611.

Harry Nelson, who is attending the Radio Corporation of America college in Chicago, spent the week-end here with his parents, Mr. and Mrs. S. Boyer Nelson.

COMMUNITY FETE IS ATTENDED BY CROWD OF 500

Antioch Recreation Assn. Clears \$100 for Its Summer Program

An over-capacity crowd of more than 500 persons put "moving space" at a premium at the big "Community party" sponsored by the Antioch Recreation association Saturday evening in the high school.

A total of \$100, to be applied toward promoting a summer recreation program in Antioch, was cleared after expenses of the affair were deducted, a final check-up by the association reveals.

Two orchestras played for the old time and modern dancing, on two separate floors. The "square dances" went over big, with Hostetter's orchestra providing the music.

The Antioch High School band played for the "swingsters," and its performance was received with much favor.

Floor Show Pleases

A floor show, with Jerry Mills Adair acting as master of ceremonies, was a highly popular feature. Costume and specialty dances were among the numbers given.

An elaborate exhibit of craft work, including wood-carving and metal and leather work; a puppet display, and an exhibition of photography done by camera clubs in Lake county were additional attractions.

Refreshments were served under the supervision of the Antioch Parent-Teacher association. Other organizations of the community, including the Woman's club and the Junior Legion, and individuals from the schools and various societies aided in making the event a success.

WIN FIDAC ESSAY CONTEST AWARDS

Doris Klass and Roberta Selter Presented Legion Auxiliary Prizes

First place went to Doris Klass and second to Roberta Selter in the Fidac essay contest which the Antioch American Legion auxiliary has been sponsoring.

The prizes, \$3 for first place, and \$2 for second, were presented during the assembly period at Antioch Township High school Friday.

Both girls are sophomores at the high school.

The topic assigned for the essays was "Queen Marie of Roumania, Ambassador of International Good Will."

The contest is part of a national one being conducted by Fidac committees of the American Legion Auxiliary. Winning essays in local contests are eligible for entry in the district events and in turn in state and national events.

A copy of Miss Klass' essay will be printed in next week's issue of the Antioch News.

Mrs. James Stearns spent the week-end in Waukegan with her daughter, Mrs. Hugu Galbraith.

Dictators Come High

On of the favorite tricks-of-the-trade of the dictators is to show how they have ended unemployment and want in their countries, and to argue from this that one-man government is the way to human happiness and prosperity. The government-dominated German press, for instance, is always publishing articles about want and starvation in America, as "proof" of their theory that democracy is a degenerate and out-of-date theory of government.

In the light of that, some figures presented by Paul Mallon, representing "months of careful personal investigation, penetrating guarded dictatorial secrets," are of exceptional interest.

In Russia, according to this survey, the average worker gets \$11 a week, and in Germany he gets \$12 to \$15. In the United States, he gets \$23.32.

In Russia, the lowest paid class of workers get \$3.60 and in Germany \$4.25. In this country they get \$4.85 (WPA minimum).

And that doesn't tell half the story. The big thing of interest to the worker anywhere is "real wages"—that is, his pay computed in terms of what it will buy, rather than in terms of dollars, marks or rubles. And here the comparison is even more unfavorable to the industrial slaves of the dictators. A pound of steak costs a dollar or more in either Russia or Germany, as against 38 cents here. A pound of coffee costs \$12 in Russia and \$1.25 in Germany, as against 23 cents here. A dozen eggs cost \$1.26 in Russia and 72 cents in Germany, as against 44 cents here. So it goes, down the list of necessities and luxuries.

What is responsible for our world supremacy in the workers' standard of living? You can answer that in three words—the capitalistic system, which encourages private enterprise. You can denounce that system all you please, but what else has brought about the industrial progress that has given us more money for less work—and has given even low paid workers things that only the favored official minority in the dictatorships can buy?

The Federal deficit for the years 1931-1939 amounts to more than total government expenditures for the 125 years, 1787-1913.

Nine out of ten of the top executives in the American steel industry have worked their way up from the ranks of the company in which they started their careers.

This country, with only 6 per cent of the world's population, carries on 50 per cent of the business activity.

You can talk all you want to about Washington and Lincoln, but judging by present day standards, the real "first American" is going to be the fellow who invents a government plan to make everybody rich without working.

Invention is a field of pioneering that remains as a frontier now that our geographical frontiers are extinct. The individual leads on this frontier as on those of old, for more ideas still come from the garrets and workshops of individuals than from the industrial laboratories either large or small. And who of us can say what new and unthought-of inventions are coming in the future to bring us more and better living, making new industries and new jobs?

Community Gold Mines

(From the Hunterdon County [N. J.] Democrat)
Formerly it was thought advantageous for nation, state and community to encourage and to cooperate with industry as a means of bringing about prosperity.

In recent years there have been many forces turned loose which tend to retard production, to tax and otherwise restrict industry. In calling attention to the value of industries to a community, Charles R. Hook, president of the American Rolling Mill Company, said recently: "If gold were discovered in the outskirts of your community tomorrow, the newspapers would carry the news in the biggest type they could find. There are few profitable gold mines, but there are many thousands of mills and factories which day after day turn out a steady stream of gold in the form of pay checks. When the pay envelopes of industry are well filled, the whole community will thrive and prosper."

Too often in communities such as we live in, we take for granted the payrolls of our industries. It is not until they cease operating by reason of poor demand for goods, depletion of capital or strikes among workers that we become aware that they are really gold mines.

The people in a community owe an obligation to their industries to see that they are not overtaxed and that they have all the protection their property is entitled to. The workers owe loyalty to their employers to see that they are able to make money and are not constantly hounded by those who seek to impose demands which cannot be met, if the management is going to continue to give employment and fill the pay envelopes.

A Billion for Interest

The annual interest charge on the public debt of the United States is now more than a billion dollars. This sum is only slightly less than the total national indebtedness prior to the World War.

A farmer earning \$500 a year pays about \$60, or 12 per cent of his income, to Federal, State, and local tax collectors.

The cost of the Federal government has increased 228 per cent since 1926.

The Fruits of Promised Reward

Daily life in America has become a series of contacts with the words "patent" and "patent pending." They mark the way of millions of Americans as they turn on a light, shave, drive to work, telephone, write a letter, listen to the radio, occasionally fly about the country and see motion pictures.

These common but seldom noticed words relate to some part, if not all, of most appliances and gadgets that make possible the modern way of life. They are silent police that warn of the right of the originator to prevent exploitation by others.

ARKANSAS DREAMS OF DIAMONDS FADE WHEN MINE PETERS

Ghost Town Now Where Once A Second Kimberley Was Expected.

CLARKSVILLE, ARK.—Chill winter winds sweep across a lofty, 700-acre plateau at Kimberley, in the Arkansas Ozarks, and rattle the flimsy timbers of a sattered group of weathered shacks—empty now, their framework like the clean picked bones of some long extinct monster thrown up from the maw of the dead volcanic crater which forms this plateau.

But those rickety buildings once formed the nucleus of what was to be a humming metropolis, built on the very top of a diamond mine which was to rival the African Kimberley fields for productivity.

Like Western Gold Towns. But, like other ghost towns of the gold and silver regions of the West, the Ozarks' Kimberley died. An industry which was to have brought millions of dollars annually into Arkansas has yielded a bare \$100,000 in 30 years of sporadic operations.

Diamond mines are rare. A bulletin of the United States geological survey once described the Arkansas field as the only diamond mines on the North American continent.

The bulletin also explained the most generally accepted theory of the formation of the valuable stones of crystallized carbon. The Arkansas field—the field proper—comprises an area of only about 60 acres.

This area, the bulletin said, is the mouth of a volcanic funnel or outlet through which flaming lava once poured under terrific pressure from the depths of the earth. With it the river of lava brought masses of peridotite soil. Mingled in this fine, sterile earth were glittering bits of carbon forced into crystallization by the intense pressure existing miles below the earth's crust.

Gems Equal to Kimberley's. When "Diamond John" Huddleston, Murphreesboro farmer, found the first two Arkansas diamonds, and they were of the highest quality—equal to those of the renowned Kimberley mines of South Africa—a rush to the 60 acre plot was made and when it was over the entire plot was cut up into small claims—the largest of these held by five separate corporations.

For a time operations went ahead on a primitive scale and several thousand dollars worth of diamonds were taken from the field. (The largest of these was a stone of 40.23 carats. Another of 20.25 carats was picked up and a third huge diamond of 17.86 carats was found.) Then, for some reason—some sources say it was pressure from interests that wanted to prevent the Arkansas field from competing with Africa's Kimberley to force the price down—the mining operations slackened and died.

But, whatever the reason, the Arkansas diamond mines soon were forgotten by most.

Sporadic attempts have been made in the past 10 years to reopen the mines, but for some reason, the efforts always fail.

And the dreams of an Ozark diamond empire fade again into the dreary aura which surrounds the ghost town of Kimberley.

Hobby Crocheter Irked; Loses on Year's Work

ST. JOSEPH, MO.—B. J. Haddan, a miller whose hobby is crocheting and quilting, is discouraged these days.

"It isn't right," he complained, "when you spend an entire year crocheting a bedspread and then see another fellow win a national championship with a spread not half so good."

Haddan said he learned his hobby the hard way from his mother. "Whenever I made mistakes I got a spanking," he said.

He and his wife have teamwork when they quilt. She is right-handed and he's a southpaw, so they start in the middle and work to the sides.

Dog Wanders Home After Being Away for Two Years

CHICAGO.—Rex is just a dog, a wire-haired fox terrier, but he remembered what the old homestead looked like after two and a half years. The dog, owned by R. L. Snape and family, had been missing since July, 1936.

Recently, Mary Snape was walking near the family home and came upon a bedraggled mutt. She yelled "Rex," and the pup jumped up to lick her hand. Taken home, he remembered every member of the Snape family and ran straight to his bed in the basement.

Nobody knows where Rex was during the last couple of years.

White Tomato Developed By California Physician

SACRAMENTO, CALIF.—It's El Tomato Blanco now—which means in Old Mexico the white tomato.

The colorless addition to the tomato family, the state department of agriculture disclosed, was so christened by Mexican workers employed by Dr. Jonas Clark, farmer and physician of Gilroy, who developed the product after eight years of experimentation.

Doctor Clark described the tomato as "absolutely white, about the same size as an ordinary tomato, but much sweeter."

'No Formula'

Dr. Ernest R. Groves, noted authority on family problems and a professor of sociology at the University of North Carolina, was among opening speakers at the fifth annual conference on conservation of marriage and the family, opening Tuesday at Chapel Hill, N. C. Dr. Groves told the conference that there is no "cut and dried formula for a successful marriage," but that three essentials are involved, intelligent selection, good preparation for marriage and the spirit of co-operation.

LAKE VILLA

Lake Villa Community Church
I. B. Allen, Pastor
Sunday School—10 A. M.
Worship Service—11 A. M.

The people of Lake Villa will have the opportunity to attend a special worship service next Sunday, and three speakers and one soloist will take part. These men come from various parts of the country, one representing Kentucky, and another lives in Pennsylvania. The subject of the service is "The Answer to Our Needs," and has three topics, "A Christian Home," taken by Clarence Plock; "A Christian Community," by Owen Shield and "A Christian World," by Stanley Creighton. Clarence Schuckman will render a solo on the French horn.

The boys of Mr. Galiger's class in Sunday school will attend a theatre party in Antioch on Friday evening and enjoy a social hour at the parsonage later.

The Ladies' Aid Society will serve a roast beef supper at the church dining room on Thursday evening this week, beginning at 6 o'clock.

A number of ladies held a "galloping" party at the home of Mrs. Leo Barnstable Tuesday afternoon to help her celebrate her birthday anniversary.

Fred Hamlin who is in St. Therese hospital, underwent an operation on Monday and is recovering as rapidly as could be expected.

Mrs. J. O. Hucker returned to her home Sunday night after a visit of several days with relatives in Chicago.

Allan Hamlin spent last week with his grandparents, Mr. and Mrs. A. Nauta, in Waukegan.

Mrs. L. J. Tweed is confined to her home by an attack of lumbago.

Clayton Hamlin and family who have been living in Waukegan for some time, moved out last Saturday and they now live in the home formerly occupied by his grandfather, Ben Hamlin.

Mr. and Mrs. Carl Eckdahl spent Sunday in Chicago and Mrs. Eckdahl's mother, Mrs. H. J. Nelson, who spent last week there, returned home with them.

Mrs. B. J. Hooper is in Victory Memorial hospital for treatment for an infection. She was taken there last week and we are glad to say that she is improving.

Mr. and Mrs. William Weber and children were guests of Dr. and Mrs. Edwin Wegner in Chicago last Sunday.

News of the death of Charles Harbaugh, who formerly conducted what is now the Hussey Lumber company, reached here Monday. Mr. Harbaugh's home was in Highland Park, and he had gone to Florida for the

winter. While there, he became very ill and it was necessary to amputate his leg, and he had been in the hospital for the past three months, but seemed to be improving. The funeral was held from the Presbyterian church in Highland Park Wednesday afternoon.

G. A. Fredericks and daughters, Miss Madge Fredericks and Mrs. Arthur Greenwood of Libertyville called on Mrs. Mary Kapple Tuesday.

In the boys' hobby contest, Clarence Hennecke won first prize, and Robert Hodgkins won second.

Intermediate Room
Miss Dexter brought some pictures of Rome to school. In this group of pictures is a picture of Julius Caesar, a ruler of about 2,000 B. C. Another picture is about their houses and still others about Roman roads. The fifth and sixth grades just got through studying about Rome and the fourth graders are beginning, so these Roman pictures will help us all. Miss Dexter has them put up on the back bulletin board.

The Intermediate Room is working on a Music play. It is to be given in three weeks. They are going to be called "The Negro Scene" and "The Indian Scene." They will be very nice with the costumes and scenes.

We are planning to have a candy sale to buy a tree for the playground. We are having the candy sale two weeks from yesterday.

On Friday afternoon we are going to bring our Hobbies to school. Some of them will be kind of hard to bring.

We are going to tell about them and show them if they are here. It will be very nice. Edna Jean said her hobby was planting flowers. Miss Dexter said it was a very nice hobby.

We are learning a poem about "April." It is very pretty.

Primary Room
The third grade wrote poems the other day. Susie Weber wrote:

Arithmetic is hard,
It is not soft, like lard.
Bob Thompson wrote:

It rains and rains and rains,
But doesn't help our brains.

Kathleen Gindich wrote:

Miss Faleh's kids like to fight,
Sometimes they kick and bite,
Be it day or night,
They love to fight, fight, fight.

HICKORY

PAUL WINS RECOGNITION FOR GENTILE CHRISTIANS

LESSON TEXT—Acts 15:23-29; Galatians 2:14-16.
GOLDEN TEXT—A man is not justified by the works of the law, but by the faith of Jesus Christ.—Galatians 2:16.

Persecution from outside was soon followed by what was even more serious—difficulty within the Church. If Satan cannot destroy God's work in one way, he cunningly tries another plan. Although the first council at Jerusalem (Acts 15) had decided that "to the Gentiles also hath God granted repentance unto life," the question did not stay settled, for there were persistent Judaizing teachers who now contended that even though the Gentiles could be saved, they had to come into the Church by way of Judaism and first fulfill the Jewish rite of circumcision.

I. A Serious Difference of Opinion—Grace Versus Law

The story of how this vital and fundamental question came up is found in the early verses of Acts 15. The entire future of the gospel ministry was in a sense dependent on the solution of this problem. Christianity is the only religious faith in the world that presents justification by grace as the way of redemption; all others follow (more or less) the path of salvation by works. The question now was: Shall works of the law be mingled with grace—can Jesus Christ alone save men, or is salvation through Jesus Christ plus something else? How was such a serious question to be settled? Should argument and strife be permitted to go on until the stronger party prevailed? Better judgment indicated the desirability of

II. A Christian Method of Settlement—Council not Controversy

There may be times when it becomes the duty of the Christian worker to take an uncompromising stand for the truth of God and refuse to be moved, come what may. But certainly there should be no such spirit in dealing with differing interpretations of Scripture on the part of sincere and earnest Christian brethren. How much would be gained in the Church today if, instead of magnifying differences and permitting personal desires and ambitions to intervene, men were willing to sit down in the spirit of Christ around the tables of Christian council and brotherhood, presided over and directed by the Holy Spirit (see Acts 15:28).

The whole question was honestly and carefully considered by the second council at Jerusalem, with the result that there was a vindication of the preachers of God's grace. After presenting a plain disavowal of those who had troubled them and subverted their souls (what a serious thing it is to teach error concerning God's Word!), the council being of one accord, gave recognition to Paul and Barnabas as men who had "hazarded their lives for the name of the Lord Jesus" and were worthy of confidence and support.

No man should think more highly of himself than he ought. Humility is a Christian grace which well befits a sinner saved by grace. But the Bible abounds with admonitions to honor one another, to recognize the laborer as being worthy of his hire, to give recognition to those who are over us in the Lord. The brethren at Jerusalem were thoughtful and courteous enough to so honor and encourage Paul and Barnabas. We could well follow their example in recognition of faithful servants of Christ in our own church or community.

III. A Momentous Decision—Salvation by Grace

The final decision of the council is sent not only by Paul and Barnabas, but also by a committee from Jerusalem, a gracious gesture of fellowship. Courtesy is not out of place in dealing with even such difficult things as controversies on Christian doctrine—in fact it should be most in place in such a situation.

As a matter of record (a wise procedure in such a case), a letter was sent which, after addressing the Gentiles as "brethren," reviewed the history of the matter and then, without mentioning circumcision at all, puts upon the Gentiles "no greater burden than the necessary things." And what were these? Those things which relate to purity of life as those who were enjoying Christian liberty. The law of Moses need not be kept as a ground of salvation. They were saved by grace. But grace can never be the cloak of careless living, nor can liberty in Christ be interpreted as license to live in sin. We are set free in Christ, not that we may sin, but that we may "go and sin no more."

Car Complete Failure, But Stork Is Perfect

CHICAGO.—Marion Fronczak's automobile was a 100 per cent failure, but, the stork came through with an average of 300 per cent.

His wife got in the family car for a quick trip to the hospital, but the machine wouldn't start. She returned to her home and soon afterward gave birth to triplets, all girls.

PET ROOSTER HELPS IN GROCERY STORE

Owner Says He Ought to Be Partner in Business.

CHICAGO.—Pete Kallas runs a grocery at 1121 Berwyn avenue. Pat is a White Leghorn rooster with a knowing eye, a red comb, and an ear-splitting crow.

Now Pete steps forward to affirm, on a stack of sardine cans, that Pat should be a partner in the business, along with the other Kallas brothers, Gus and John. And he tells this story to prove it:

"That rooster came in here three and a half years ago in a crate with five other Leghorns," Mr. Kallas explains. "We sold the five—look 'em out and chopped off their heads, right on that meat block over there."

"But every time we went to sell Pat he'd crow at us. We'd put off the sale from day to day. One customer insisted on that particular rooster. We finally had to tell her he wasn't for sale. We started to call him Pat. He seemed to like it."

"One day we let him out of the pen. He strutted around the store like he owned the place. Each time a customer came in he'd crow."

"Pretty soon he got to answering the telephone. Now, whenever it rings, he flies over to it and crows."

"On sunny days he walks down the street as if looking for customers."

"He's jealous of other chickens, too. When we have them in the store he flies at the netting on the pen."

A photographer who had heard about Pat went to the grocery to take his picture. He hinted to Mr. Kallas that he didn't think there was a rooster ever hatched that could do the things claimed for Pat.

"So?" said Kallas. "You just watch. Get your camera set up."

"O, Pat," he called. The rooster quit strutting around and hopped up on the counter. He cocked an inquiring eye at Pete.

"Pat," asked Kallas. "What happened to your brothers and sisters?"

The rooster, with a dejected squawk and with tail feathers drooping, flew over to the meat block. He rolled over on his back with his feet in the air, and lay motionless.

Steel Worker Retires, Turns to Crochet Work

CLEVELAND.—Pensioned steel worker Leonard Murton has laid aside the heavy iron bar with a hook on one end which he used when he was a heater in the steel mills and has turned to using another type of hook—a crochet needle.

Looking about for an occupation, the 71-year-old retired worker began to observe how his wife crocheted.

"I can do that," he said, and he started to learn.

"I think that it was easy for me to learn how to crochet because I used an iron hook so many years in the steel mills. It also came easy to me because my sister taught me how to knit when I was in school," Murton said.

He now is an expert crocheter and specializes in bedspreads of intricate designs.

Murton went to work in the steel mills as a water boy when he was 13. Gradually he advanced to the job of heater. A year before the mill in which he worked was discontinued he was awarded a gold medal for a half-century of continuous employment. The district in which he lives is called the "Iron ward."

A Don Quixote Eagle Is Killed in the Rockies

DENVER.—The mighty eagle no longer rules the air above the Colorado Rockies.

One monarch of the crags went out to battle three fearsome-looking invaders yesterday and crashed to death against the wing of an army attack plane 50 miles northwest of Pueblo, Colo.

The three planes were doing about 275 miles an hour when the eagle tackled one piloted by Lieut. C. E. Putnam.

"He dove straight at me, like an attacking plane," Lieutenant Putnam said. "The impact tore a hole the size of a man's hat in the leading edge of the plane's right wing."

True Love Never Dies; Woman Faithful Till 102

NEW ORLEANS.—Marie Alice Lazende's sweetheart was killed in the Civil war and every year on his birthday for 78 years she lifted a glass of wine and said:

"Bientot, mon bon aime." (Soon, my well beloved.)

She was buried recently, having died at the age of 102. Miss Lazende told her sweetheart that if he did not return from the war, she would never marry. She never did.

The Observer

Folks must be slipping. We haven't had any stories about first robins, or first anything, since 'way last winter.

The Antioch Recreation association's "Community party" was a big success, with a huge crowd, swing music, "everything." And guess what went over biggest with the jitterbugs attending? You're right. The square dances. Proving granpa and gramma must have been right when they thought they were having fun at the dances in the old days.

We're getting a little tired of the monotony of gray skies and rain. In fact, we'd like to pick as our new theme song, "Blue skies, nothing but blue skies," instead of gasping "All Ashore!" when passing cars splash our windshield.

It's getting nigh onto the season for dandelion and cowslip greens, but if this sort of weather keeps up, you'll probably find us doing our summer gardening with our fur coat on. And a muffler.

Truck Rolls Over Into Ditch After Collision

A large ice-cream truck driven by J. B. Miller of Genesee Depot, Wis., careened off the road into a ditch, plowing its way deep into the soft earth of an over-hanging "shoulder," when it collided with a tank truck driven by Walter Ahrens of Chicago, Monday on Wisconsin Highway 83, near the power station south of Salem.

Neither driver was injured. The steering gear on the Miller truck was broken, and the vehicle suffered other damages. The tank was unbroken and the load of milk was transferred to another tank.

Miller was driving north on 83 when his truck ran into that driven by Ahrens.

"Big Ten" Champions Will Meet Friday Night

"Jim" McMillen of Antioch and "Ruffy" Silverstein, both of whom have been "Big Ten" collegiate wrestling champions in the past, and both of whom by a further coincidence hail from the same Alma mater—the University of Illinois—will meet in wrestling match Friday evening in the Chicago Coliseum.

Silverstein was awarded the belt for the state championship some time ago by the state athletic commission, since which time he has steered clear of McMillen.

This is not their first encounter, but rather the continuance of an old rivalry, for they wrestled for the first time in September of 1937.

GIRL SCOUTS PLAN ANNUAL COOKIE SALE THIS WEEK, NEXT

A contest for honorary titles will be held in connection with the annual cookie sale being planned by the Antioch Girl Scouts for this week and next. Those selling 25 boxes will be known as "cookie princesses," and those selling 50 boxes are to receive the titles of "cookie queens."

Funds from the sale will be used for the purchase of troop equipment. A charge of 25 cents a box is being made for the cookies, and orders are being taken by the various scouts.

Thursday afternoon has been set as the regular meeting date of the troop, which now has a membership of 20 girls. The last meeting was under the charge of Doris Burdick, with Dorothy Aronson assisting.

FOX LAKE FLIER IS FIRST TO SOLO

Other Are Doing Well, Says Solberg; Record from Navy Received

Homer Seavey of Fox Lake has solo flights to his credit at the new Lake Region Flyers' school. Other students are also doing well, according to William M. Solberg, instructor.

Solberg deserves credit for bringing flying service to the Lakes region. For school work he uses a Taylor Cub dual-control training ship. He plans to put a seven-place passenger-carrying job into service this Sunday.

The News has, upon request, received from the Navy Department at Washington, D. C., a copy of Solberg's record while in the service.

He first enlisted in 1915 as an apprentice seaman, and after four years' service was issued an honorable discharge at Great Lakes. He had by that time attained the rank of carpenter's mate, first class. Re-enlisting a year later, he was given a discharge under special orders in 1921 as a first class aviation carpenter's mate.

He re-enlisted in the aviation department of the U. S. Naval reserve. The report states that during Solberg's career as an aviator "he has a clear record and had no mishaps while flying." It indicates a total number of 477.2 flying hours and a total of 836 flights while on flying duty, during this enrollment.

During succeeding enlistments he completed courses in motors, personnel management, magnetism and electricity, and machine shop work for machinist's mates, for which he was awarded certificates.

In 1928 he was entitled to an honorable discharge, but extended his enlistment for four years. During his last enlistment he attained the rank of chief aviation pilot, receiving an honorable discharge in 1932. The report closes with the statement that "an honorable discharge is considered a testimonial of fidelity and obedience."

Waukegan May Have Coast Guard Station

A possibility that Waukegan's often-made requests for a coast guard station may be granted was seen as reports were received that the house of representatives in Washington is considering a bill for establishing one there.

The bill was introduced in the house by Rep. Ralph E. Church.

At present the coast guard stations nearest to Waukegan harbor are those at Kenosha and Wilmot.

Athletic Banquet Is Held at Wilmot H. S.

One hundred and fifty high school athletes, coaches and officials of the southeastern Wisconsin Conference gathered at the Wilmot high school gymnasium Thursday night, April 13, for the annual banquet and conference get-together of the athletes, coaches and officials of the high schools at Mukwonago, East Troy, Rochester, Watford, Norris Farms, Union Grove and Wilmot.

A very interesting program followed a banquet served by the Home Economics department of the high school. Marlin M. Schaurr, school principal, presided as toastmaster and introduced the principal speaker, Arlie Mucks, a former athletic star from the University of Wisconsin. He graduated from the University in 1916 after making gridiron, field and track history and became a delegate of the United States to the Olympic games that year. He holds the unofficial record for the world for the discus throw and starred in other weight events. He is present Wisconsin state administrator of the Farm Security program.

Principal Schaurr introduced Assistant County Agent Maunie Frey, a former University of Wisconsin basketball star. He presented a two reel motion picture program depicting athletic activities of the university.

A program of musical numbers and comic skits was staged by members of the squads from various schools taking part.

Hats With Veiling Galore Are in a Capricious Mood

By CHERIE NICHOLAS

MILLINERY has indeed come into its own this spring. The new hats are everything a spring hat should be—the most refreshingly springlike hats that have graced fashion's stage for many a season. In them romance in millinery has been recaptured.

The very ecstasy of spring breathes through the flowers that bedeck the pretty straw and through the ribbons and fantastic scarf trimmings on colorful felts and suedes, likewise through the dainty lace and immaculate lingerie trims, new this season, and through the glorified spring colorings and beyond all the final touch of charm is achieved via mists of frivolous whimsical veiling that swirls and whirls and cuts pretty capers throughout the entire picture.

You can be as choosy as you like in selecting your spring bennet. Whether you decide on one of the very new and amusing elfish tall crowns that style the latest models or whether you declare in favor of a crownless type, whether your hat be huge of brim or have no brim at all (flower-touques with pert bon-bon colored veils are quite the rage) whether it be a breton or Gibson girl sailor you choose, or if you are ultra enough to want one of the very smart Paris-inspired bonnet types that tie under the chin, no matter in what direction fancy leads you, you can't go wrong in fashion's eyes.

New in crowns is the pestillon. See it pictured in the group to the left above. This model in miniature blue (on attractive blue featured this season) felt is trimmed with contrasting plaid taffeta ribbon and an allover crisp blue veil. Plaids and stripes have invaded the millinery world with great display. Hat and bag sets of striking plaids or stripes are among the fetching conceits that tune to the enthusiasm shown for high color.

Veilings galore are enlivening the

millinery scene this spring. The hat without a veil is the exception rather than the rule. In arranging veils you are supposed to do just as fancy dictates, the more whimsical, the more erratic, the more altogether adorably irresponsible so far as following form and conventions, the smarter.

Navy is classic for spring suits, coats and dresses. The navy blue hat of chic peach-basket variety shown below to the left in the picture is topped off with a cluster of soft pink ribbon bows nestled inside the top of the crown. A sheer navy veil is draped around the crown with ends flying in the back. This model is also available in other fashionable color combinations.

Black hats with colorful accents are an accepted mode for dressy spring wear. The crown of the black felt Waleau, shown above to the right, is sprightly decked with chartreuse and fuchsia flowers. The big bow at the back is of stiff chartreuse veiling.

With her black lace afternoon dress Hildegarde, glamorous American radio songstress, wears a black felt turban with bright Tuscan straw brim as pictured below to the right in the group.

The newer shallow-crowned bretons stress forward moving slightly rolled brims higher at the back than front as pictured in the inset below. This charming model is a Pixie green felt with contrasting veil and ribbon band in navy. It is also seen in various other color combinations.

Popular Box Coat

After the heavy winter coat is laid aside, then what? The handsome box coat pictured gives the answer. Because it has a slim slightly flared skirt, and because of its unusual shoulder and sleeve interest, this bouclé box coat in the tan, presented recently at a woman's wear style clinic held in the Merchandise Mart, Chicago, is destined to be extremely popular this spring. It makes a grand coat too for wear the whole summer through on cool days. Diagonal tucking the full length of the sleeve carries forward a new note in sleeve interest. The standing roll collar is also new.

Peary First to Reach North Pole
Admiral Robert E. Peary was the first to reach the North pole, on April 6, 1909.

Style Notes

Camisole tops take the lead in slits.
More play clothes will be worn this year.
Call is for ladylike dressmaker coats.
Patent leather for shoes and accessories!
Peak-a-boo blouse of the nineties returns.
Designers make tremendous use of tucks.
Bubble-glass jewelry in pastel colors is new.
Many boutonnieres, notably violets and carnations, are seen.
Navy frocks trimmed with white val lace edgings are most attractive.

Plan Tweed Suits For Youngest Set

A news note in clothes for the young crowd lies in suits. Designers have made them in the new colorful tweeds with fitted jackets, gored skirts and topcoats or capes to match.

Slacks are important spring and summer fashion news in boys' sports clothes, designers say. Shirts and slacks in cottons and hopsackings have been designed for all young males over two in a series of bright colors they can mix to suit themselves. For youngsters under eight shorts and shirt combinations are also shown.

For Evening Wear

Fashion news from the Molyneux showings stress the launching of narrow, high-waisted Directoire styles for evening.

Sunniest British Isles

The great number of the British Isles—there are several hundred, large and small—never interested anyone to count them. One important fact about the Channel Isles in the south—Jersey, Guernsey, Alderney and Sark—is always remembered: They are the sunniest of them all.

Black With Pink Makes Its Appeal

New Theme Is Interpreted In Fetching Ways

By CHERIE NICHOLAS

Not all is high color in the fashion world, for the black dress that is exquisitely detailed continues to make its appeal to women who depend on their accessories for color accent, and if not black then navy is their choice.

Black with pink touches is a theme that is being interpreted in fetching ways. Pink bubble glass jewelry at throat and at wrists, do-skin pull-on gloves in pink a trifle darker, crowned with a wide-brimmed black straw trending to sailor type, made irresistibly lovely with a realistic full-blown pink rose with long thorny stems and a wealth of foliage and buds entwined simply and casually about the crown—there's subtle allure in a costume formula such as this.

Not so dressy but ever so chic for the career girl to wear during her hours of activity in the studio, about town and such, is the tailored suit or black topcoat that is topped with a muted pink nonchalant suede hat and carries a matching suede boutonniere on the jacket or coat lapel. A blouse or gilet of dusky pink suede would add infinite charm.

With either navy or black the new spic and span white lingerie touches bespeak a refinement and ladylike aspect, to which every woman of discriminating taste aspires.

Hi Ho Knows

"A sure thing," said Hi Ho, the sage of Chinatown, "is what a smart but unscrupulous person tells a man who looks like a good thing."

Temporary Finishes

The terms "percale finish," "deluxe" or "linen-like finish," sometimes found on sheeting labels usually indicate temporary finishes.

Ten Largest Foreign Cities

The 10 largest foreign cities, in order, are London, Tokyo, Paris, Berlin, Moscow, Shanghai, Osaka, Leningrad, Buenos Aires and Vienna.

Combining Jacket Being Modernized

The fussy "combining jacket" that mother used to wear has been superseded by a trim rubber cape which has many other uses besides keeping stray hairs from settling on a clean dress or blouse. Slipped on and off in a jiffy, it is ideal for repairing complexion and for washing up at odd moments when there isn't time to disrobe.

One of the newest make-up capes on the market has a little pocket in the form of a flower for holding hair pins, powder puff, or comb. The soft rubberized fabric takes to soap and water like a dish cloth, thus making it possible to keep its delicate pastel colors flower-fresh.

Fashion Designers Turn Lilac-Minded

Each season this flower or that flower is especially featured. Paris milliners have turned lilac-minded this spring, either trimming with lilac clusters or in some instances making touques and even tiny sailor hats of them. Wear a lilac spray on your dark or light coat, it is one of the popular flowers of the moment in fashion's realm. Carnations are also worn.

Checked Costume

It is considered smart this season to have at least one shepherd's checked costume in the wardrobe.

Silk for Action

Washable and noncrushable silks for active sportswear have been endorsed by Paris.

Shells for Lapels

Tiny bouquets of flowers are made entirely of shells and are to be worn in your lapel.

Bouquet Bracelets

Newest fashion whimsy is to wear bouquet bracelets matched to the color of your nails. Flowers on a band of velvet that are matched to nail-polish shades will make your hands the talk of the card table. Flowers in fuchsia are matched to fuchsia polish, pale faun-pink buds are matched to regency, tulip nails match tiny tulips. Winning hands at beauty as well as at card table may be graced with dainty orchids at each wrist as pictured.

Aromatic Earrings

Perfumed earrings are a recent whimsy. They come in the form of tiny metal flowers, in color to match your ensemble. The perfume fragrance rises through a gold mesh center from a wad of cotton inserted below.

Gas Refrigerator

IT'S PERMANENTLY SILENT *because it has
no moving parts in its freezing system*

Since the Servel Electrolux refrigerator operates on gas, a single burner takes the place of moving, wearing parts . . . a tiny flame circulates the refrigerant, without wear or noise.

These are important advantages in themselves, but equally important are the other results that you get in refrigeration freezing without moving parts . . . the fact that the low operating cost is never increased, that Servel gives you *more years of service*, and actually can save enough in food alone to pay for itself.

Ask your friends and neighbors who own Servels what *they* think of gas refrigeration . . . then, before you decide, get all the facts about Servel Electrolux "the gas refrigerator you hear about but never hear!"

SET OUT 3,600 TREES IN FOREST PROJECT HERE

Seedlings Planted on High School, Jensen, Raether Properties

Approximately 3,600 trees, ranging from seedlings to saplings eight feet in height, were planted in this vicinity Monday, Tuesday and Wednesday as part of a reforestation project being conducted by the Illinois reforestation department.

Two Douglas spruce windbreaks of approximately 100 large trees were set out on tracts of the Dr. G. W. Jensen and O. L. Raether properties allotted for this purpose.

These can be seen at the southeast corner of the intersection of Highways 173 and 54, and on the first farm east of Pikeville Corners.

Students Help

The 1,500 trees set out on property belonging to Antioch Township High school, adjacent to the Jensen land, were planted by members of the vocational agriculture classes of the school. They also assisted on Monday with the planting of the windbreak and the reforestation project on the Jensen property, where 2,000 trees were set out.

Trees planted in the demonstration plots include white pine, jack pine, black walnut, black locust, cypress, burr oak and green ash.

J. E. Davis, forestry expert of the University of Illinois, supervised the plantings. H. C. Gilkerson, Lake county extension agent, and C. L. Kuth, vocational agriculture instructor at the high school, co-operated.

A blue-print of the plantings may be seen in the window of the Antioch News office.

Interests Farmers

The planting of forest trees can stop soil erosion and at the same time produce valuable wood crops to add to the farm income, it was pointed out

by Mr. Davis in the tree planting demonstrations, which were open to the public and were attended by more than 50 Lake county farmers.

Mr. Davis pointed out that the ground utilized for tree planting was not productive for other agricultural purposes, and called attention to the fact that small or large non-productive areas on farms could be planted to woodlots.

"Forest trees provide the most complete vegetative cover for soil protection," Davis continued. "When planted on eroded land forest trees can also be used to produce fence posts, fuel wood and timber for new buildings or repairs."

"There are more than 3,000,000 acres of land in Illinois which were once used for farm crops but which are now useful only for timber growth. It is a good idea to plant trees on such land as rapidly as possible to change it from a liability to an asset."

Mrs. Hennings Elected Business Club Leader

Mrs. C. E. Hennings was elected to succeed Mrs. H. B. Gaston, the retiring president of the Antioch Business and Professional Women's club, at a meeting Monday evening.

The other new officers are Miss Aileen Wilson, vice-president; Miss Marian Johnson, secretary, and Miss Esther Fledderjohn, treasurer.

Club to Hear Another Talk by J. G. McKibbin

J. G. McKibbin, who drew an audience of 40 persons, including many visitors from out-of-town, to a recent meeting of the Townsend club, will again address that organization on Friday evening, April 21, in St. Ignace church. The meeting will open at 8 o'clock.

To Show Baseball Film Wednesday at Grayslake

A county-wide free showing of National league baseball pictures, together with snow sports scenes and "Pandora," will be held in the Grayslake school Wednesday evening, April 26, at 8 o'clock. The Lake County Farm bureau is sponsoring the program.

DR. FLETCHER OF SALEM DIES

Friends Here Learn With Regret of Well Known Physician's Death

Many friends of Dr. William Fletcher, Salem, in Antioch and vicinity learned with deep regret of his death last week in Passavant Memorial hospital, Chicago, after a short illness.

Dr. Fletcher, who was prominent as an eye, ear, nose and throat specialist, had left March 1 for a month's vacation in the south. At Miami, Fla., his condition became serious. He entered a hospital, where his illness was at first thought to be sleeping sickness.

He was brought by plane to Chicago, where he was treated for a tumor on the brain and underwent an operation Saturday. His death occurred on Monday. The seriousness of his condition was not realized until about two weeks before his death.

Wife Survives

Survivors include his wife, the former Miss Jennie Ogden, of Canada, to whom he was united in marriage Nov. 2, 1911, and a son, Ogden Fletcher, of Chicago. (Another son, Donald, was drowned while ice skating on Hooker lake Feb. 2 1928).

Also surviving are three sisters, Mrs. Joseph Frey, Chicago; Mrs. Nellie Wheeler, South Bend, Ind.; and Mrs. Ella Smart, LaPorte Ind.; five nieces, Doris Fletcher and Mrs. Thorntina Weld, Chicago; Mary Wheeler, Crystal Wheeler and Wilma Wheeler, and one nephew, Richard Wheeler, all of South Bend, Ind. One brother, Ernest, preceded him in death.

Funeral services were held in the Salem Methodist church last Wednesday afternoon with the Rev. Ernst Kistler officiating. Six members of the Kenosha County Medical society, Drs. Curtis, Van Westrienen, Richards, Beatty, Jorgensen and Bennett, acted as pall-bearers.

Interment was in the family plot at Liberty Corners cemetery.

Surgical Therapist

Dr. Fletcher was noted for his achievements in the fields of surgical therapy and X-ray and was a member of the North American Institute of Radiology.

He was born in Knox, Starke county, Ind., Sept. 20 1879 the son of Isaac and Mary Fletcher. He earned his own way through Valparaiso university and the Chicago College of Medicine and Surgery, becoming resident physician and surgeon at Frances Willard hospital. He moved to Salem in 1907, later taking post graduate work in eye, ear, nose and throat diseases in which he afterward specialized.

He was a member of the Kenosha county, Wisconsin state, and American Medical associations, and of the Odd Fellows and the Woodmen of the World.

Hartnell Services are Held at Salem

Funeral services were held for Joseph Hartnell, 83, of Salem, Saturday afternoon at 2 o'clock in the Salem Methodist church. Interment was in the family plot in Liberty Corners cemetery.

Mr. Hartnell was born in Gales Bay, Newfoundland, July 11, 1855, the son of of the late Mr. and Mrs. Joseph Hartnell.

He came to the United States in 1879, residing first in Brighton township, afterward at Paris Corners, and later in Salem, where he made his home for the past 55 years. He was united in marriage with Miss Martha Gregory, July 22, 1879, at Kenosha. His wife preceded him in death June 28, 1926. He was also preceded in death by five of their children.

Three sons and three daughters survive, Guy and Clarence Hartnell, Benton Harbor, Mich.; Charles Hartnell, Milwaukee; Mrs. Herman La Pisto, Chicago; Mrs. Fred Richards, Salem, and Mrs. Ray Meyers, Benton Harbor, Mich. Fourteen grandchildren, three great-grandchildren also survive, as well as four brothers and one sister, Frank Hartnell, Kenosha; Eli Hartnell, Twin Lakes; Charles Hartnell, Milwaukee; Henry Hartnell, Fond du Lac, Wis., and a sister residing in California.

J. E. Carlson, Resident of Woodcrest, 79, Dead

Jons E. Carlson, long a summer resident at Channel Lake and prominent in Masonic circles, died Sunday at the home of his son, Harry Carlson in Edison Park, at the age of 79.

Mr. Carlson had been a resident of Woodcrest for the past 15 years, and he was vice president of Sunside Improvement association. In Chicago his home was at 6944 Osceola avenue. He was a member of Grand Crossing Masonic lodge No. 776, Oriental Consistory, Medinah Temple and United Brotherhood of Carpenters.

Besides his son, Harry, he is survived by a daughter, Mrs. Ruth Cornelius, and two sisters, Mrs. Marie Nelson and Mrs. Hulda Tallett.

Funeral services were held Tuesday at the Chapel at 6601 N. Ashland avenue.

West Point Is Setting for Delightful Picture

"With a whole corps of cadets to pick from, why did I have to fall in love with you?" is the plaint of Joan Fontaine in "The Duke of West Point," which will come to the Crystal theatre Saturday with Louis Hayward, Tom Brown, Richard Carlson and Alan Curtis in the leading masculine roles.

The story is that of an impossible "plebe" who "knows it all," who gets into difficulties when he violates West Point's sacred "Honor Code"—and winds up by putting friendship above self—and winning the girl just when it seems he has lost her.

The action is laid against impressive West Point settings, including the traditional "Flirtation Walk."

Announce Deadline for Entering Farm Program

The Agricultural Adjustment Administration announces that May 1 will be the final date for farmers in the ten states of the North Central Region to complete and sign farm plans for participation in the 1939 Agricultural Conservation Program.

Officials state that in the North Central region no farm inspection for the purpose of determining performance and payments will be made on farms for which farm plans are not executed by May 1.

Those who intend to participate in the 1939 Program and as yet have not signed up are asked to call at the Grayslake office.

Boxing Tourney Will Open at Libertyville

The Libertyville Boys' club will sponsor its third annual Junior Amateur Lake County boxing tournament for boys 9 to 16 years of age, starting Saturday, April 15.

The preliminaries will be held Saturday afternoon at 2:30 o'clock and in the evening at 7:30. Semi-finals will be at Libertyville Township High school Friday evening, April 21, with the finals on Saturday evening, April 22.

Boys from Antioch, as well as other towns, have been invited to take part.

Ted Larson Wins Service Recognition at Jacksonville

Ted Larson left for Jacksonville Saturday after enjoying a brief vacation here with his parents, Mr. and Mrs. P. T. Larson. Ted was recently appointed chairman of the second annual International Relations conference for high school students, to be held in May. Says the College Rambler, the school's official publication: "Larson, popular sophomore from Antioch, Ill., is well qualified to handle this event. Last year he served on the conference committee, and for the past two years has been very active

in the International Relations Club. He is at present the president of the Sophomore class, a member of the Phi Alpha literary society and a leader in the new gym campaign which was conducted early this semester."
